Overview of the Play

"All My Sons" revolves around the Keller family, particularly Joe Keller, a businessman who sold defective airplane parts to the military during World War II. The consequences of his actions lead to tragedy, affecting both his family and his community. The play is set in the Keller backyard, which serves as a microcosm for the broader social and ethical dilemmas faced in post-war America.

Plot Summary

The play opens three years after the war, with Joe Keller living a seemingly idyllic life with his wife, Kate, and their son, Chris. However, the shadow of their deceased son, Larry, who died in the war, looms large over the family. Kate believes Larry is still alive, creating tension within the family dynamics.

As the narrative unfolds, we learn that Joe was implicated in a scandal involving the sale of faulty aircraft parts, which led to the deaths of 21 pilots, including Larry. Chris, who idolizes his father, is blissfully unaware of Joe's culpability until he begins questioning the family's moral values after he becomes romantically involved with Ann Deever, Larry's former girlfriend. Ann's father, Steve Deever, is in prison for the same crime, leading to moral questions about loyalty, guilt, and the nature of justice.
