Additionally, the exam demonstrated a balanced coverage of political, social, economic, and cultural themes across multiple historical periods.

Focus on Historical Thinking Skills

The exam continued to prioritize historical thinking skills as outlined by the College Board's AP History Framework. These include:

- Analyzing and interpreting primary and secondary sources
- Developing and supporting an argument using evidence
- Making connections across different historical periods
- Understanding causation, continuity, and change

The 2023 released exam questions were crafted to test these competencies, reinforcing the importance of critical engagement with historical material rather than mere memorization.

Content Distribution Across Historical Periods

The released exam maintained a comprehensive coverage of U.S. history periods, with balanced representation from colonial times through the 21st

century. Particular attention was given to significant events such as the American Revolution, Civil War, Reconstruction, the Great Depression, Civil Rights Movement, and contemporary issues. Document-Based Question (DBQ) Breakdown

The DBQ remained a critical component, challenging students to analyze a set of provided documents and develop an argumentative essay. The 2023 DBQ focused on a specific historical issue, requiring interpretation of diverse sources such as letters, speeches, legislation, and images. Students had to contextualize documents, compare perspectives, and construct a well-supported thesis.

Long Essay Question (LEQ) Themes

The LEQ offered students a choice among prompts addressing different historical themes or periods. This allowed test-takers to select a question aligned with their strengths and knowledge. The essays tested skills in argumentation, use of evidence, and historical reasoning, reflecting the overall exam's emphasis on depth and clarity of understanding.

Free-Response Scoring Rubrics

Both the DBQ and LEQ are scored according to detailed rubrics emphasizing thesis development, use of evidence, and reasoning.
