Whether you are a seasoned player or a newcomer, this guide will provide you with all the necessary tips and strategies to successfully complete the heist solo.

Overview of the Cayo Perico Heist

The Cayo Perico Heist is unique among heists in GTA Online because it can be completed solo. Players can approach the mission at their own pace and make strategic choices that suit their play style. The heist involves reconnaissance, planning, and execution, with the ultimate goal of stealing loot and escaping undetected.

Setting Up the Heist

Before diving into the heist itself, players must prepare. Here's how to set up for a successful solo mission:

1. Purchase a Kosatka Submarine:

- The Kosatka is essential for launching the heist. It serves as your base of operations.
- Ensure you have enough money to buy it from Warstock Cache & Carry.

2. Complete the Intro Mission:

- After purchasing the Kosatka, players must complete an introductory mission that introduces the island and the heist mechanics.

3. Gather Equipment:

- Equip yourself with necessary tools:
- Weapons: Choose a mix of stealth and combat weapons.
- Night Vision Goggles: Useful for nighttime infiltration.
- Body Armor: Essential for surviving encounters.

4. Scout the Island:

- Use your reconnaissance drone to survey the island. Identify guard patrols, security cameras, and entry points.
- Mark key locations such as the main compound, potential loot spots, and escape routes.

Planning Your Approach

The success of your heist largely depends on how you plan your approach. Here are various strategies to consider:

1. Stealth vs. Aggression:

- **Stealth:** Focus on avoiding detection. Use silenced weapons, take out guards quietly, and use cover to move undetected.
- **Aggression:** If you prefer a more action-oriented approach, be ready for combat. Equip powerful weapons and be prepared for a shootout.

2. Entry Points:

- **Identify different entry points:**
- **Main Gate:** Heavily guarded; best for aggressive approaches.
- **Water Access:** Swim to the island from the ocean to avoid detection.
- **Underground Tunnel:** Look for hidden tunnels that provide stealthy access.

3. Loot Choices:

- **Decide what to steal:**
- **Gold:** High value, best for maximum payout.
- **Artwork:** Moderate value, easier to carry.
- **Cash:** Low value but can be taken in bulk.

Executing the Heist

Once you've planned your approach, it's time to execute the heist. Follow these steps for a successful run:

1. Entering the Island:

- Choose your entry point based on your strategy. If you're playing stealthily, avoid main paths and stick to the shadows.

2. Navigating the Compound:

- Use your reconnaissance knowledge to avoid guard patrols.
- Take out guards silently when necessary. Use the environment to hide bodies to prevent alerting other guards.

3. Accessing the Vault:

- Once inside the compound, locate the vault. You may need to hack security systems or use keycards obtained from guards.
- Be mindful of security cameras and additional guards in this area.

4. Collecting Loot:

- Grab the loot quickly. If you've chosen high-value items like gold, be aware of your carrying limit.
- Consider your escape route while collecting loot.

5. Exiting the Compound:

- Retrace your steps or find an alternate escape route to avoid guards.
- Use your map to navigate back to your exit point.

Escape and Getting Paid

After successfully collecting your loot, the next step is to escape the island and cash in your earnings:

1. Evading Pursuit:

- Once you leave the compound, guards will be alerted. Use distractions, such as throwing rocks or using noise-making devices, to divert their attention.

2. Choose Your Escape Method:

- Swim to the Submarine: If you entered by water, make your way back to your Kosatka.
- Use a Vehicle: If you have a vehicle nearby, make a run for it, but be prepared for roadblocks.

3. Returning to the Kosatka:

- Once you're back at your submarine, you can initiate the final cutscene, which will show your character successfully escaping with the loot.

4. Payout:

- After the heist is completed, you will receive a payout based on the loot you collected. The more valuable the items, the higher your earnings.
