Preparing for the Heist

Preparation is key to a successful solo heist. Here's how to get ready:

Gathering Intel

1. Go on Scouting Missions: Use the Kosatka submarine to access the island and scout key

locations.

2. Collect Information: Identify points of interest, guard patrols, and entry/exit routes.

3. Take Note of Loot Locations: Knowing where the most valuable items are located will save you time during the heist.

Purchasing Equipment

To increase your chances of success, invest in the following items:

- Silenced Weapons: A suppressed weapon is essential for stealth.
- Night Vision Goggles: Useful for nighttime operations or dark areas.
- Disguises: Consider purchasing disguises to help you blend in with NPCs.

Executing the Heist

With preparation complete, it's time to execute the heist. Here's a step-by-step guide:

Infiltration

1. Choose Your Approach: Decide whether to go in stealthily or guns blazing. Stealth is recommended for solo players.
2. Enter the Island: Use the submarine to approach the island undetected. You can also use a speedboat or aircraft.
3. Avoid Detection: Stay out of sight of guards and use cover to navigate the area.

Collecting Loot

- Prioritize High-Value Targets: Focus on the most valuable items first, such as artwork or gold.
- Use the Loot Bag: If you're carrying loot, be aware of your weight limit. Plan your route back to the exit accordingly.
- Stay in Motion: Keep moving to avoid being spotted by guards.

Exfiltration Strategies

Once you have secured the loot, it's time to get off the island. Here are some strategies for a successful exfiltration:

Choosing Your Exit Route

- Use the Same Route: If you entered through a specific route, consider using it to exit. Familiarity will help you avoid detection.
- Alternative Exits: Identify any alternative exits you may have noted during your scouting mission.

Dealing with Guards

- Avoid Combat: Engaging in combat can alert more guards. Try to remain stealthy.
- Create Distractions: Use items like grenades to create noise and divert guard attention while you slip away.

Post-Heist Considerations

After successfully escaping the island with your loot, there are a few important aspects to consider:

Cash-Out Options

- Return to the Kosatka: Once back in your submarine, you can cash out your loot.
- Choose Your Payout: You have the option to take the money or hold onto it for future heists.

Consider the following when planning your next run:

- Different Approaches: Try different strategies to see what works best for you.
