Origins of Cinderella Stories

The Cinderella narrative has deep roots, dating back to ancient times. The earliest recorded version of a Cinderella-like tale is attributed to the Greek historian Strabo, who wrote about a story involving a girl named Rhodopis. However, the most well-known version of the tale is that by Charles Perrault in the late 17th century, which introduced many elements that are now synonymous with the story, such as the glass slipper and the fairy godmother.

In Spanish-speaking cultures, these stories have been adapted and transformed through oral traditions and written literature, incorporating local folklore and social contexts. This has resulted in a rich tapestry of Cinderella narratives that vary from country to country.
