What Is Circle Mirror Transformation?

Circle mirror transformation is a concept popularized by theater director and educator Anne Bogart. The technique encourages participants to engage in a series of physical and vocal exercises that foster a sense of community, enhance self-awareness, and promote creative expression.

Origins of Circle Mirror Transformation

The roots of circle mirror transformation can be traced back to the teachings of renowned theater practitioners such as Jerzy Grotowski and Lee Strasberg. These influential figures emphasized the importance of physicality in acting, focusing on how movement and body language could convey emotion and narrative. Anne Bogart expanded upon these principles, integrating them into her approach to ensemble work. The technique has since gained popularity in acting schools and workshops around the world.
