Understanding Conjunctions

Conjunctions are words that join together other words, phrases, or clauses. They play a crucial role in sentence structure and coherence, allowing for more complex and nuanced expressions of thought. There are three main types of conjunctions:

1. Coordinating Conjunctions

Coordinating conjunctions link words, phrases, or independent clauses that are grammatically equal. The most common coordinating conjunctions are:

- For
- And
- Nor
- But
- Or
- Yet
- So

A helpful acronym to remember these is FANBOYS.

2. Subordinating Conjunctions

Subordinating conjunctions connect an independent clause with a dependent clause, establishing a relationship between the two. Some common subordinating conjunctions include:

- Although
- Because
- Since
- Unless
- While

- After
- Before

These conjunctions are crucial for creating complex sentences that convey more intricate ideas.

3. Correlative Conjunctions

Correlative conjunctions work in pairs to connect equivalent elements in a sentence. Common pairs include:

- Either...or
- Neither...nor
- Not only...but also
- Whether...or

Understanding how to use these conjunctions correctly can significantly improve a student's writing style and clarity.
