Step 3: Add Ingredients

- Place the rinsed rice into the non-stick inner pot. Add the appropriate amount of water as per your rice type, along with any seasonings, salt, or oil if desired.

Step 4: Close the Lid

- Ensure the lid is securely closed to maintain steam during the cooking process.

Step 5: Select Cooking Function

- Plug in the rice cooker and select the desired cooking function based on the type of rice or grain you are preparing.

Step 6: Start Cooking

- Press the start button. The cooker will begin the cooking process, and the indicator light will signal that cooking is in progress.

Step 7: Wait for the Cooking to Finish

- Once cooking is complete, the cooker will automatically switch to the keep-warm setting. Let the rice sit for about 10 minutes before opening to allow it to finish steaming.

Step 8: Fluff and Serve

- Open the lid carefully, as steam may escape. Use the serving spoon to fluff the rice gently before serving.
