1. **Draw Two Circles:** Begin by sketching two circles next to each other, with their edges touching.
2. **Add a V Shape:** Below the circles, draw a "V" shape that connects to the bottom of both circles.
3. **Refine the Shape:** Erase the inner lines where the circles meet and smooth out the points to create a flowing heart shape.

Symmetrical Heart Drawing

For a more structured approach, you can use symmetry to your advantage:

1. **Use Graph Paper:** Start on graph paper to ensure even proportions.
2. **Draw Half a Heart:** Sketch the left half of a heart, then flip the paper or use a mirror to replicate the shape on the right side.
3. **Connect the Two Halves:** Draw a smooth line to connect both sides, creating a perfectly symmetrical heart.
