Troubleshooting Common Issues

Battery Life Problems

If you notice that your Coros Pace 2 is not holding a charge:

- Ensure you are using the original charging cable and adapter.
- Check for software updates via the Coros app, as updates can improve battery performance.
- Reduce the screen brightness or turn off unnecessary features like Bluetooth when not in use.

GPS Connectivity Issues

If the GPS fails to lock onto your location:

- Ensure you are outdoors and away from tall buildings or dense forests that might obstruct the

signal.

- Restart the watch and try again.
- Update the Coros app and watch firmware for potential fixes.

Maintenance and Care for Your Coros Pace 2

Regular Cleaning

To keep your watch in optimal condition:

- Wipe the watch with a soft, damp cloth after workouts.
- Avoid exposing the watch to extreme temperatures, chemicals, or excessive moisture.

Updating Firmware

Regularly updating the firmware can enhance performance and add new features. To check for updates:

- Open the Coros app on your smartphone.
- Navigate to the settings menu and select “Firmware Update” to see if a new version is available.

Storing Your Watch

When not in use, store your Coros Pace 2 in a cool, dry place. Avoid direct sunlight and extreme humidity, as these can damage the internal components.
